

PRF & PRP Hair Restoration Tampa Bay Pricing Landscape

Palm Harbor, Dunedin, Tarpon Springs, Clearwater, Safety Harbor & Greater Tampa / St. Petersburg

Prepared May 2026 · 36 clinics surveyed · Hair-restoration (scalp) pricing only

This report surveys the platelet-rich fibrin (PRF) and platelet-rich plasma (PRP) hair-restoration market across Palm Harbor and the surrounding Pinellas, Pasco, and Hillsborough county clinics. The goal is to establish competitive pricing benchmarks to support the addition of a PRF hair-restoration service.

Headline finding: This market runs on consultation-gated pricing — only about 7 of 36 clinics publish actual hair-restoration prices, and virtually none publish a *PRF-specific* hair price. That makes transparent, published PRF pricing a genuine point of differentiation in the Palm Harbor area.

Published Price Anchors

These clinics publish real hair-restoration pricing and form the reliable benchmarks. Everything else in the market is quote-on-consultation.

Clinic	Location	Type	Single session	Package	Confidence
LivingYoung Center	Palm Harbor + St. Pete	PRP + microneedling	\$800 first / \$650 follow-up	4 follow-ups \$2,100 (~\$525/ea)	High
Aria Med Spa	Clearwater	PRP	\$900	Not published	Medium
St. Pete Wellness	St. Petersburg	PRP / PRF	\$600	6 sessions \$3,240 (~\$540/ea)	Medium

PRF vs PRP Economics

- **PRF commands a premium over PRP**, consistently. Market data shows **+\$100–300 per session**; a conservative, competitive premium is **+\$50–150**.
- **Why the premium holds (sales narrative)**: no anticoagulant additive (all-natural), slower / sustained growth-factor release via the fibrin scaffold, "newer / advanced" positioning, and higher processing overhead (specialized horizontal centrifuge, tighter timing).
- **Protocol norm**: 3–4 initial sessions, 4–6 weeks apart, then maintenance every 6–12 months. This makes packages the core revenue unit.
- **Package discounts are modest** — typically **5–15% off** single-session price for the initial series (e.g., Skin Pharm ~8%, Menz Orlando ~12.5%). Deep discounting is not required.
- **Financing**: CareCredit and HFD (hair-specific) are the standard; prepay packages function as the de facto "commit & save" offer.

Suggested Pricing for a Palm Harbor PRF Launch

- **Single PRF session: ~\$750–950**. Sits at or just above local PRP, justified by the PRF premium narrative. Pricing under LivingYoung's \$800 follow-up while offering PRF (which they do not) is a strong wedge.
- **Initial 3-session package: ~\$2,100–2,400** (~10–15% off single). Matches LivingYoung's \$2,100 anchor and St. Pete Wellness package math.
- **Maintenance: \$500–700 every 6 months**, ideally structured as a membership / subscription.
- **Differentiator: publish the price**. The vast majority of competitors hide pricing behind a consult — transparent PRF pricing is genuinely rare in this market.

Methodology & Caveats

Thirty-six clinics were identified across the Tampa Bay market via structured web research in May 2026, filtered to hair-restoration (scalp) pricing only and excluding facial/skin PRF pricing. Most clinic websites returned HTTP 403 to automated retrieval, so several prices (Aria, Medspa of Tampa, LivingYoung, St. Pete Wellness) are drawn from search-engine snippets of those clinics' own pages rather than a live page read. Items marked "High" / "Medium" confidence are the most reliable; **all prices should be confirmed by phone before finalizing**. No local clinic publishes a PRF-specific hair price. The Pramah "~\$600" figure is from a third-party aggregator and should be treated as soft. Figures are point samples, not verified rate cards, and reflect a snapshot in time.
